

*Lysolecithin preparation*

# COSMESOME L-10

**Kewpie Corporation**

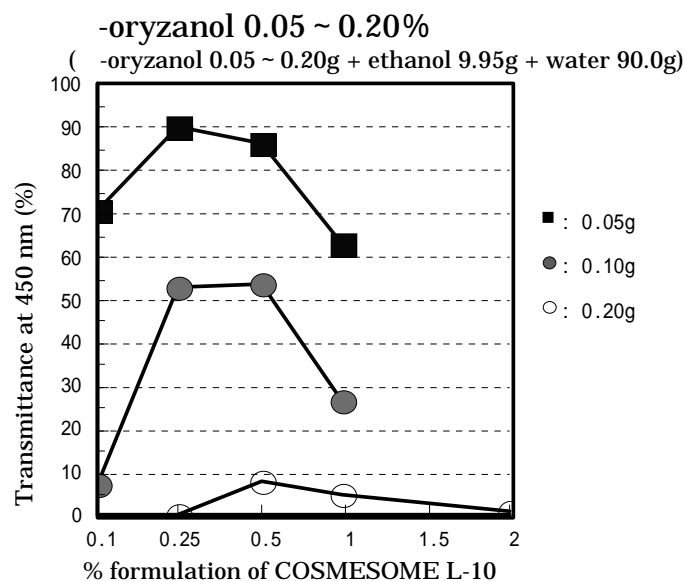

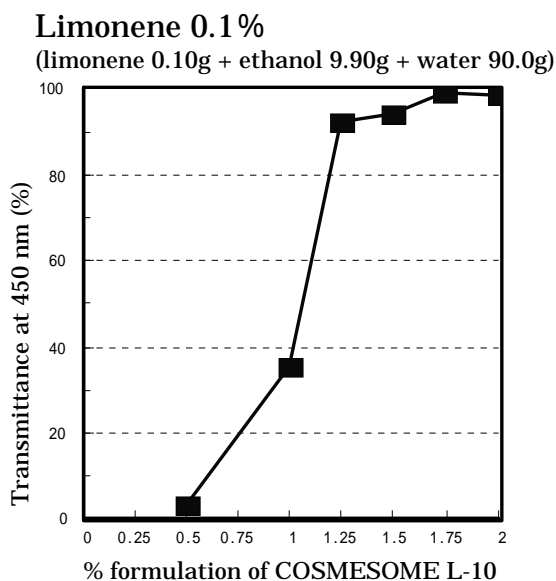

“COSMESOME L-10” is a new type of lysolecithin preparation which is made from “Egg Yolk Lysophosphatidylcholin (conforming to JSQI standard)” by our special technology to improve stability while minimizing development of color and odor by time .

It is a polyalcohol base product and easy to formulate with other ingredients .

## EXCELLENT FEATURES OF COSMESOME L-10

- COSMESOME L-10 is made from high purity lysolecithin and to minimize development of color and odor by lapse of time , accordingly it is most suitable for non-fragrant cosmetics .
- COSMESOME L-10 can be used as emulsifier , dispersant and solubilizer .
- COSMESOME L-10 disperses and hydrates easily under room temperature and is suitable for transparent facial-lotion . It is worth to note that Cosmesome L-10 can be used even for non-fragrant and non-alcoholic transparent cosmetics with which phospholipids it was not easy to formulate in the past .
- COSMESOME L-10 is transparent and even liquid and easy to handle .
- COSMESOME L-10 can be stored under room temperature .

## SOLUBILIZATION TEST RESULT

## U S E

Emulsifier , dispersant and solubilizer for wide range of cosmetics including non-fragrant, non-alcoholic transparent facial- lotion .

## SPECIFICATIONS AND A TYPICAL ANALYSIS

	Specifications	Analysis
Acid Value	NMT 2	0.4
Heavy Metals	NMT 20 ppm	NMT 20 ppm
Arsenic	NMT 2 ppm	NMT 2 ppm
Phosphorus	0.8 ~ 1.2 %	1.0 %
Aerobic plate counts	NMT 300/g	NMT 10/g
Mold and Yeast	NMT 100/g	NMT 10/g

## COMPOSITION

Ingredient Name	INCI Name	Composition
Egg Yolk Lysophosphatidylcholine	Lysolecithin	20 %
Glycerin , Concentrated	Glycerin	40 %
Dipropylene Glycol	Dipropylene Glycol	40 %

## STORAGE AND EXPIRY

Storage : Store at ordinary temperature and keep it away from direct sunlight and high heat, high humidity. Keep away from fire .

Expiry : 1 year from the manufacturing date. (unopened, at ordinary temperature )

## PACKING

1kg (in can) × 1 ~ 10 = 1 carton
