

COSMESOME Q10

Kewpie Corporation

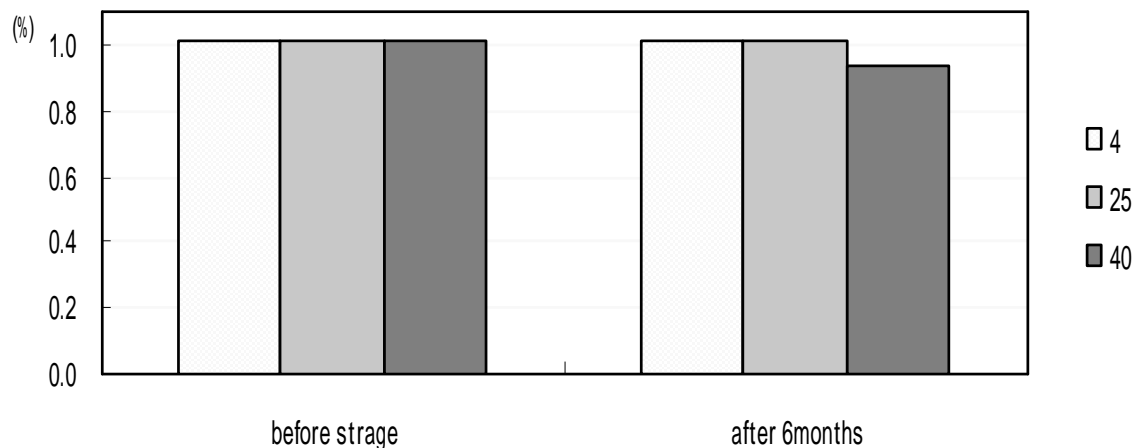

“COSMESOME Q10” is a preparation made by dispersing insoluble Ubiquinone (coenzyme Q10) in pure water by our original emulsion technology without using synthetic surfactant nor organic solvent. It easily disperse in water phase .

EXCELLENT FEATURES OF COSMESOME Q10

COSMESOME Q10 easily disperse in water phase .

It is a stable preparation and does not show deterioration for 6 months under cool storage (1 ~ 10) . However, ubiquinone (coenzyme Q10) is degraded by light so it is recommended to store it in the light-resistant container .

STABILITY (Assay of Ubiquinone) (a typical analysis)

After 6 months it does not show any decrease in ubiquinone contents under temperature 4 and 25 .

U S E

This is a good material for wide range of cosmetics especially to save skin from ageing .

SPECIFICATIONS AND A TYPICAL ANALYSIS

	Specifications	Analysis
Description	Yellow to orange-yellow liquid with characteristic odor .	Passed
pH	5.0 ~ 7.5	6.7
Heavy Metals	NMT 20 ppm	NMT 20 ppm
Arsenic	NMT 2 ppm	NMT 2 ppm
Ubidecarenone	0.9 ~ 1.1 %	1.0 %
Aerobic plate counts	NMT 100 / g	NMT 10 / g
Mold and Yeast	NMT 100 / g	NMT 10 / g

Ubidecalenone= description as a cosmetic material "Ubiquinone"

COMPOSITION

Ingredient Name	INCI Name	Composition
Purified Water	Water	97.2 %
Ubidecarenone	Ubiquinone	1.0 %
Hydrogenated Egg Yolk Phospholipids	Hydrogenated Lecithin	1.0 %
2-Phenoxyethanol	Phenoxyethanol	0.8 %

STORAGE AND EXPIRY

Storage : Store it at 1 ~ 10 in light-resistant container .
Freezing strictly prohibited .

Expiry : 6 months from the manufacturing date. (unopened, at 1 ~ 10 .)

PACKING

1kg (in can) × 1 ~ 10 = 1 carton
